

VENUS 03

Gayther Colour & Learn

(demonym: **venusian** | **vee-nuhs** | **'vi:.nəs**)

The planet Venus is the second planet from the Sun and is referred to as the sister or twin planet to the Earth. The planet was named after the Roman Goddess Venus, who represented love, beauty, desire, sex, fertility, prosperity, and victory. Within astrology, it is associated with the star signs Libra and Taurus and is often considered the planet of love and money. Venus is personified as beauty, pleasure, love, harmony, sociability and abundance. The planet is seen as having feminine or female identities. **The LGBTQIA+ connection is the symbol for Venus and is typically doubled and used to represent the lesbian community.** Ultimately Venus is about love, harmony and abundance
