

GOLF 11

GAYTHER COLOUR AND LEARN

Golf is a precision sport in which players use clubs to hit a ball into a series of holes on a course, aiming to complete the course in the fewest strokes possible. It emphasises skill, strategy, and consistency, and can be played individually or in groups. Golf is enjoyed worldwide, both as a recreational activity and a competitive sport, with major tournaments like The Masters and the U.S. Open showcasing the best players. Golf has origins dating back to 15th-century Scotland, where it was played on the Links courses along the coast. The modern form of the game began to take shape in the 18th and 19th centuries, with the establishment of formal rules and the creation of iconic courses like St. Andrews.

INTERESTING FACT

The odds of making a hole-in-one are 12,500 to 1, and Tiger Woods made his first hole-in-one at just eight years of age.
